## 2000 U.S. Census Reports 4a, 4b, and 4c

The U.S. Census Bureau collects data on the people of the United States every 10 years. The 2000 U.S. Census Reports are produced by the Office for Research and Planning of the Archdiocese of Philadelphia for use by pastors. A complete glossary of U.S. Census terminology may be found at: <http://www.census.gov/main/www/glossary.html>. Listed below are definitions to help you understand U.S. Census Reports 4a, 4b, and 4c.

### Important Definitions from the U.S. Census:

The census reports two main kinds of housing: households and group quarters:

A **household** is a house, apartment, mobile home or trailer, or a single/group of rooms occupied as separate living quarters.

A **family** includes a householder (the person in whose name the home is owned or rented) and one or more people living in the same household who are related to the householder by birth, marriage, or adoption.

**Non-family households** are comprised of a householder living alone or with non-relatives only.

In most cases, the **householder** is the person (or one of the people) in whose name the home is owned or rented and/or is listed as Person 1 on the census questionnaire.

A household which contains **unmarried partners** (a householder and his or her partner who are not legally married or participating in a common law marriage) can be either a family or a non-family household. If related persons (e.g. children) live there also, this would be a family household.

**Institutional Group Quarters** contain people under the care or supervision of trained staff, and classified as "patients" or "inmates" in juvenile and correctional institutions, nursing homes and hospitals for chronically ill.

**Non-Institutional Group Quarters** contain people living in group quarters other than institutions including college dormitories, religious/other group homes, missions and shelters.

A **Housing Unit** is a house, apartment, mobile home or trailer, group of rooms, or a single room occupied as separate living quarters in which occupants live separately from other individuals in the building.

The following terms are used by the Chancery and the Research and Planning Office when collecting data in the Annual Pastoral Report:

A **Religiously Mixed Household** is a registered household in which at least one member is not Catholic.

A **Contributing Household** is a registered household that regularly uses Church envelopes or is a known financial contributor.
